## ***Get Involved in Boosters***

Info here

[andrewathleticboosters.org](http://andrewathleticboosters.org)

Attention all future T-Bolts, our annual 8th grade open house may not be happening on campus this fall as we are accustomed to, but we would love to have you complete our 8th grade interest survey through google forms. Andrew is proud to be one of the few schools in the Chicagoland area to provide THIRTY different athletic programs for boys and girls. The research is clear here at Andrew that students who get involved have a higher GPA, test scores, far less discipline referrals, more post secondary options, more academic and athletic scholarships, and a far more positive experience. Please consider joining taking the time to complete our short interest survey by scanning the above QR code. Providing your information and interests will help us get you the most up-to-date information on athletics for the summer of 2021 and beyond!
